

■ INTERNAL COMMERCIAL MODEL

From managed services to AI-enabled operating models.

THIS MODEL TURNS AI FROM A LOOSE CAPABILITY INTO A PRICED COMMERCIAL STRUCTURE ACROSS CX AND BDR.

35–40%

Baseline margin target

+25%

AI-Enabled CX target uplift

+30%

AIMY-Powered BDR target uplift

40–65%

AI-first entry margin target

The Strategic Story

AI does not replace the service model. It changes how the service is packaged, priced, and governed.

1 Protect the base

Legacy Managed CX and Managed BDR remain available for capacity-led clients and lower AI-maturity accounts.

FTE/month pricing

35–40% baseline margin
Useful fallback, not default

2 Upgrade the core

AI-Enabled CX and AIMY-Powered BDR add a priced operating layer across QA, coaching, visibility, and governance.

CX uplift target: +25%

BDR uplift target: +30%

Measured through ROI & usage

3 Open new doors

AI-first entry products give Sales a low-friction way to prove value before a full outsourcing pitch.

Fixed project / Pilot fees

AI QA Pilot & Diagnostics
ICP/List Build & BDR QA

Portfolio Architecture

Three commercial routes across two service lines. The model is intentionally not one generic “AI strategy.”

ROUTE	CX OFFER	BDR OFFER	PRICING LOGIC	MARGIN ROLE
Legacy Managed	Managed CX	Managed BDR	FTE/month	Protect current base business at 35–40%
Legacy + AI	AI-Enabled CX	AIMY-Powered BDR	FTE + uplift + setup + capped usage	Premium managed service and modest margin expansion
AI First Entry	AI QA Pilot, Workflow Diagnostic, Knowledge Assessment	ICP/List Build, Campaign Readiness, BDR QA Pilot	Fixed project / per unit / pilot	Door opener and higher-margin add-on revenue
Expansion	CX Workflow Automation	AIMY Growth Engine	Setup + monthly / usage / hybrid outcome pricing	Higher margin upside through non-FTE meters

Pricing Thesis & Recurring Margin

The AI uplift funds a real operating layer. True margin expansion comes from scoped modules and outcome models.

CX BASELINE RATE

\$1,600

AI-ENABLED CX (+25%)

\$2,000

BDR BASELINE RATE

\$2,000

AIMY-POWERED BDR (+30%)

\$2,600

CX Recurring Margin (English L1)

ITEM	LEGACY CX	AI-ENABLED CX
Monthly price	\$1,600	\$2,000
Base delivery cost	\$1,000	\$1,000
AI operating cost	—	\$175
Gross profit	\$600	\$825
Gross margin	37.5%	41.3%

BDR Recurring Margin (Standard BDR)

ITEM	LEGACY BDR	AIMY-POWERED BDR
Monthly price	\$2,000	\$2,600
Base delivery cost	\$1,250	\$1,250
AIMY/data/tooling cost	—	\$300
Gross profit	\$750	\$1,050
Gross margin	37.5%	40.4%

AI-Enabled CX Offering

AI improves quality, speed, and visibility. Workflow automation and Voice AI are separate expansion layers.

CX Managed

Standard delivery for capacity-led opportunities and lower AI-maturity clients.

From \$1.4K–\$1.7K

per English L0–L1 FTE

Includes Agents, TL, QA, standard training & reporting

AI-Enabled CX

Managed CX with AI QA, Agent Assist, automatic summaries, Client Pulse, and coaching insights.

Target +25% uplift

on applicable base rate

Usage caps & overage rules apply

+ CX Expansion

Automation, Voice AI, and diagnostics are priced separately where the workflow justifies it.

Typical \$10K+ setup

Workflow Diagnostic

Voice AI priced per minute

AIMY-Powered BDR Offering

BDR has stronger productization potential. The AIMY package needs caps on lead volume and QA coverage.

Managed BDR

Standard BDR capacity for clients that already own the sales motion and mainly need outreach execution.

From \$1.8K–\$2.2K

per BDR / month

Outreach execution, manager oversight, standard reports

AIMY-Powered BDR

Managed outbound with AI-supported sourcing, hygiene, guidance, BDR QA, Client Pulse, and CRM handoff.

Target +30% uplift

on applicable base rate

Lead sourcing/hygiene within caps

AIMY Growth Engine

Premium model for mature campaigns where accepted meetings or SQL outcomes can be clearly defined.

Hybrid Pricing

Base rate + meeting/SQL fee

Requires clear ICP & rules

Bundled vs Standalone Module Allocations

Bundled modules share the managed service infrastructure. The package only works if total cost stays inside the uplift.

CX Bundled Module Allocation

MODULE	STANDALONE	BUNDLED	COST
AI QA & Coaching	\$150/FTE	\$85/FTE	\$35–\$60
Agent Assist Copilot	\$125/FTE	\$75/FTE	\$35–\$60
Case Summaries	\$50/FTE	\$25/FTE	\$10–\$20
Client Pulse	Bundled	\$25/FTE eq.	\$10–\$20
Governance / Insights	\$50–\$100	\$35/FTE	\$20–\$35
Total	—	\$245/FTE	\$110–\$195

BDR Bundled Module Allocation

MODULE	STANDALONE	BUNDLED	COST
Lead Sourcing + Hygiene	\$2k–\$10k	\$150/BDR	\$80–\$150
Sales Guidance	\$2k–\$7k	\$75/BDR	\$25–\$50
BDR QA & Coaching	\$200/BDR	\$110/BDR	\$50–\$90
Client Pulse	Bundled	\$50/BDR eq.	\$20–\$40
Funnel Gov + Handoff	\$100–\$200	\$90/BDR	\$50–\$80
Total	—	\$475/BDR	\$225–\$410

CX Legacy Level Card by Language

Standard CX pricing starts from the English card. L5 remains unscaled as an operations/governance role.

LEVEL	ENGLISH	FRENCH	SPANISH / ITALIAN	GERMAN / DUTCH
L0	\$1,400–\$1,600	\$1,575–\$1,800	\$1,750–\$2,000	\$1,925–\$2,200
L1	\$1,600–\$1,700	\$1,800–\$1,913	\$2,000–\$2,125	\$2,200–\$2,338
L2	\$1,800–\$2,000	\$2,025–\$2,250	\$2,250–\$2,500	\$2,475–\$2,750
L3	\$2,300–\$2,500	\$2,588–\$2,813	\$2,875–\$3,125	\$3,163–\$3,438
L4	\$2,500–\$2,800	\$2,813–\$3,150	\$3,125–\$3,500	\$3,438–\$3,850
L5 (Ops Mgr)	\$3,000–\$4,000	\$3,000–\$4,000	\$3,000–\$4,000	\$3,000–\$4,000

CX AI-Enabled Level Card (+25% Uplift)

+25% applied to applicable legacy rate. Usage caps and overage rules required.

LEVEL	ENGLISH	FRENCH	SPANISH / ITALIAN	GERMAN / DUTCH
L0	\$1,750–\$2,000	\$1,969–\$2,250	\$2,188–\$2,500	\$2,406–\$2,750
L1	\$2,000–\$2,125	\$2,250–\$2,391	\$2,500–\$2,656	\$2,750–\$2,922
L2	\$2,250–\$2,500	\$2,531–\$2,813	\$2,813–\$3,125	\$3,094–\$3,438
L3	\$2,875–\$3,125	\$3,234–\$3,516	\$3,594–\$3,906	\$3,953–\$4,297
L4	\$3,125–\$3,500	\$3,516–\$3,938	\$3,906–\$4,375	\$4,297–\$4,813
L5 (Ops Mgr)	\$3,750–\$5,000	\$3,750–\$5,000	\$3,750–\$5,000	\$3,750–\$5,000

CX Criteria & BDR Level Card (+30% Uplift)

How we classify CX work levels, alongside BDR legacy and AIMY-powered level cards.

CX Criteria

LVL	CX CRITERIA
L0	Basic back office, tagging, simple updates, low judgment
L1	Standard customer handling with clear SOPs and escalation
L2	Senior handling, exceptions, refunds, complaints, multi-system
L3	QA, SME, training, calibration, knowledge maintenance
L4	Team lead / supervisor, coaching, queue & escalation control
L5	Ops manager, account governance, AI adoption roadmap

BDR Level Card

LVL	FUNCTION	LEGACY	AIMY +30%
L0	Research / Hygiene	\$1.3K–\$1.8K	\$1.7K–\$2.3K
L1	Standard BDR	\$1.8K–\$2.2K	\$2.3K–\$2.9K
L2	Senior / Multilingual	\$2.2K–\$2.8K	\$2.9K–\$3.6K
L3	BDR TL / QA	\$3.0K–\$3.8K	\$3.9K–\$4.9K
L4	BDR Manager	\$4.0K–\$5.0K	\$5.2K–\$6.5K
L5	AIMY Growth Cons.	\$5.0K–\$7.0K	\$6.5K–\$9.1K

Client ROI & Value Cases

The premium must be justified through measurable operating value. ROI reviewed after 90 days.

CX Value Case (20-FTE, +\$8k/mo premium)

METRIC	TARGET RANGE
Productivity / capacity	10–15%
AHT reduction	8–15%
Wrap-up reduction	15–30%
QA coverage expansion	5–10x
Rework / recontact reduction	5–10%
Ramp improvement	10–20%

BDR Value Case (5-BDR, +\$3k/mo premium)

METRIC	TARGET RANGE
Bad-fit lead waste reduction	10–20%
Lead coverage improvement	10–15%
Engagement relative uplift	5–10%
Accepted meeting quality uplift	5–10%
BDR ramp/coaching improvement	10–20%
Handoff leakage reduction	5–10%

Governance & Implementation Timeline

Implementation process turns the commercial model into a controlled operating system.

01 Baseline & Scope

Weeks 1–2

Confirm workflows, data access, KPIs, scope, and commercial assumptions with the client.

02 Configure & Build

Weeks 3–5

Configure AI QA, agent assist/guidance, Client Pulse dashboards, and the governance model.

03 Pilot & Calibrate

Weeks 6–8

Run controlled pilot, compare AI output with human review, and adjust model parameters.

04 Scale & Govern

Weeks 9–12

Expand coverage, move into recurring monthly operating reviews, and audit metrics.

Guardrails & Eligibility Rules

Pricing only works when scope, usage, and delivery ownership are controlled and protected.

Commercial Guardrails

RULE	RECOMMENDATION
Minimum term	6 months, 12 months preferred when setup is amortized
Setup fee	mandatory unless explicitly amortized
Usage caps	required for AI QA, transcription, lead sourcing, dashboards, integrations
Change requests	required for new workflows, channels, languages, ICPs, dashboards
Repricing	volume, channel mix, scope, QA coverage, or data needs change materially

Package Eligibility

PACKAGE	GOOD FIT	AVOID WHEN
Managed CX/BDR	capacity need, low AI maturity	client expects transformation or outcome pricing
AI-Enabled CX	stable workflows, KB, data access	broken SOPs, no baseline, unclear ownership
AIMY-Powered BDR	clear ICP, lead source, handoff rules	vague ICP, weak offer, no sales owner
Automation/Growth	clear process and outcomes	subjective criteria, high uncertainty

Entry Signal to Expansion Path

Sales should use AI-first products to diagnose and prove value, then convert into premium operating models.

CLIENT SIGNAL	ENTRY OFFER	EXPANSION PATH
Weak QA visibility	AI QA Pilot	AI QA managed service → AI-Enabled CX
Manual / repetitive workflow	Workflow Diagnostic	CX Workflow Automation
Poor knowledge consistency	Knowledge Assessment	Agent Assist → AI-Enabled CX
Poor lead quality	ICP/List Build	AIMY-Powered BDR
Weak outbound messaging	Campaign Readiness Pack	AIMY-Powered BDR
BDR activity but low quality	BDR QA Pilot	AIMY-Powered BDR / Growth Engine
Clear ICP + outcome focus	AIMY Growth Engine	Hybrid pricing / expanded campaigns

Recommended Leadership Decisions

Decisions required by management to make the commercial model executable in production.

DECISION	RECOMMENDED DEFAULT
CX AI uplift	+25% target applied to base rate card
BDR AIMY uplift	+30% target applied to base rate card
Setup fee policy	mandatory unless amortized into a longer-term contract
Client Pulse	bundled visibility only, not standalone software access
AI First	shortlist 3 CX products and 3 BDR products as defined above
Output pricing	only with written ICP, acceptance, handoff, and rejection criteria
